But what does that mean?

When we say, “We Take Care of Our Own,” it means providing our policyholders with the best malpractice policies possible. It means personal customer service from folks who understand your practice. It means helping the profession grow by funding research, supporting students, and working with state and national associations.

In other words, **it means everything.**

Raise your shield. Supplements that support your immune system*

The body's enemies take on many forms — stress, seasonal changes, environmental contaminants. Though we can't make the immune system invincible, we can make it more prepared.
