OBJECTIVE

To provide the best possible
care by using a variety of
evidence based treatment
options designed with each
patients needs in mind.____

EXPERIENCE

SENIOR CHIROPRACTOR AT RAHC

Doctor of Chiropractic at Reynolds Army Health Clinic
2005 - Present

As I began working at RAHC, I immediately began to lay the ground work for showing the need for additional DC Providers and Chiro Techs. I was able to show not only the need, but the justification for two additional Doctors of Chiropractic but also for an additional Chiro Tech Position, as well as a full-time front desk medical support assistant and a dedicated clinic space. I was also able to simultaneously become the Civilian Representative for the RAHC Civilian Forum representing the Department of Rehab Services for the past two years as well as a Member of the Civilian Awards Board helping to award and recognize deserving Civilian individuals for various awards for the past one year. In addition to the personnel added to the Chiro Clinic, I have been able to acquire and maintain with the help of the office manager, the necessary equipment needed to keep the clinic fully functional.

I pride myself on being able to handle multiple tasks and various personalities in order to make sure that the requirements at hand are accomplished.

SKILLS

I am especially good at dealing with people and explaining difficult topics in an easy and relatable way, I have a diplomatic approach to handling tough subjects in a professional manner.

EDUCATION
