

## SPECIAL PRESIDENTIAL RECOGNITION

I'd like to take a moment to recognize someone who has been a long-time advocate for public protection.

An active member of her state board and willing participant in FCLB projects and committees, she's invaluable as a regulator and as a friend.

This is a woman with strength of character, a level head, and a passion for public protection.

She is defined by the quality of her service to others.

**Dr. Shannon Gaertner-Ewing of Idaho**

Please join me in recognizing her service.
