NEW DISTINGUISHED SERVICE AWARD

I’d like to introduce a new award for the FCLB this year.

This award’s purpose is to recognize a special individual’s significant dedication & devotion of duty, years of accomplishments and services by an honorary fellow, and who have shown consistent involvement with the FCLB organization in public protection and have contributed to its culture and community.

This could describe many of our FCLB leaders. Yet, there exists another, higher level of service – an even greater dedication. The kind of dedication that becomes most notable through many years of commitment, through kindness to new delegates and staff, through tangible support of upcoming leadership and the wisdom that only comes with experience. Service like that cannot go unnoticed. Service like this is legendary.

So, when the time came to name this award, many words came to the forefront of board’s discussion.

Words such as vintage, distinguished, and super-generous.

We even tossed around the idea of incorporating the words “Fashion-Forward” or “Epic Jacket.”

Ultimately, after much discussion, the FCLB BOD found the title that sums up all of the qualities above.

Please join me in celebrating our very first Hulteen Distinguished Service Award recipient, a legend of chiropractic regulation for his 40 years of service.

Dr. Hank Hulteen
