5/5/06: FCLB Bylaws & Resolutions Committee recommends PASS

WHEREAS, training in emergency medical measures is an important aspect of clinical competency and timely responsiveness to an event; and

WHEREAS, the doctor of chiropractic is often the first and direct contact with the patient in the delivery of chiropractic health care; and

WHEREAS, medical emergencies may occur in the chiropractic clinical setting and must be addressed; now therefore be it

RESOLVED

that the Federation of Chiropractic Licensing Boards (FCLB) encourages member boards to promote CPR and AED training of licensees to aid in their preparedness to respond to emergency situations.
