

Cary Coglianese, Ph.D., J.D., M.P.P., A.B. presented on **ACHIEVING REGULATORY EXCELLENCE IN AN ERA OF ADVANCED TECHNOLOGY AND COMPLEX RISK** during our virtual District Meetings. Dr. Coglianese shared regulation's struggle to keep up with technology as well as the advantages technology has to offer regulators.

Dr. Coglianese explained the importance of defining regulatory excellence as well as the challenges in shaping the behavior of others. He also talked about the importance of conducting regulatory assessments of your own board's policies, rules, and regulations.

To learn more about the balancing act of regulation, consider checking out Dr. Coglianese's book, *Regulatory Breakdown: the Crisis of Confidence in U.S. Regulation*, and view his presentation on FCLB's YouTube channel.

Regulation is, at its core, relational. It is motivational. It is fundamentally about affecting people's behavior.

Cary Coglianese, Ph.D.

FCLB Services

CIN-BAD

CIN-BAD has launched the Automatic Notification System (ANS) for member boards and subscribers. These monthly updates includes lists of current actions and reports to the system so regulatory and credentialing agencies know when their licensees have been disciplined. ANS is another important step in patient safety and licensee oversight.

CCCA

Another service available to member boards is the Certified Chiropractic Clinical Assistant (CCCA) program. As more boards look at patient safety and chiropractic assistants, the need for uniform standards is increasing. Like all of our programs and services, the CCCA is designed so you don't have to reinvent the wheel. If you are considering language to regulate chiropractic assistants, please contact us to learn how this program might help your board.

PACE

The FCLB Board of Directors have posted proposed changes to the governing documents for Providers of Approved Continuing Education – Chiropractic (PACE). The PACE Committee hosted a forum for comments and revised the proposals based on stakeholder feedback. The proposed revisions include modifying the current amendment procedures, granting the PACE Chair in consultation with the FCLB Executive Director emergency authority to suspend non-compliant providers, and stronger distance learning criteria in keeping with current licensing board standards.

To view these proposed changes, visit www.pacex.fclb.org. FCLB continues to accept written comments which may be submitted to pace@fclb.org. The FCLB Board is scheduled to vote on these revisions at the 2021 Annual Meeting.

Melanie de Leon, J.D., Executive Director for the Washington State Medical Commission, spoke about SEXUAL ABUSE - ACHIEVING ZERO TOLERANCE. Ms. de Leon shared her board's experience in identifying evidence, advocating for public protection, and reclassifying sexual violations as abuse instead of misconduct.

Ms. de Leon discussed the evidence of why chaperones don't work and directed attendees to find their own resources for SMART and trauma-informed training programs.

Please visit FCLB's YouTube channel to view a recording of Ms. de Leon's presentation.

Committees

Committee Appointments

Committee appointments are made by the FCLB President and approved by the FCLB Board of Directors annually at the midyear meeting.

To learn more about FCLB Committees, visit the Committee page under the Home tab at fclb.org.

To volunteer for committee service, simply indicate your interest on any meeting evaluation form.

CBAC - Chiropractic Board Administrators continue to connect to share best practices and regulatory resources. This important committee met earlier in the fall via Zoom to discuss COVID-19 challenges and emergency orders as well as the ongoing issues boards face.

CBLAC - Chiropractic Board Legal Advisers also have their own committee to share resources and brainstorm solutions. In their fall zoom meeting, participants learned about Nevada's criminal conviction panels.

Learn more about these committees and access reference materials via the Boards tab at fclb.org.

THANKS TO THE NBCE and EBAS

Special thanks to the National Board of Chiropractic Examiners and Ethics & Boundaries Assessment Services for sharing an overview of their programs and current initiatives at our District Meetings.

Delphi Study

Conducted every 5 years to ensure Parts I & II align with college curriculums - to be completed by end of 2020

Practice Analysis

Conducted every 5 years to ensure Parts III & IV align with the chiropractic profession.

Available online at MyNBCE.org.

State Exams

NBCE administers a wide range of state exams. The NBCE can complete a state's jurisprudence exam in 6 months. Contact NBCE to learn more.

Ethics Exam

The EBAS exam is an online essay exam administered at Prometric Testing Centers for easy scheduling and delivery.

From our Friends at FARB

The Federation of Associations of Regulatory Boards (FARB) has recently announced a change in management services to WJ Weiser. FARB released an announcement stating, "Weiser succeeds the law firm of Atkinson & Atkinson, whose work in founding and sustaining FARB through its growth over many years is acknowledged and greatly appreciated."

Information on WJ Weiser is available online at wjweiser.com.

FARB President

Membership Dues

Membership Dues invoices will go out in December. Please feel free to contact us if you have any questions or would like information about member benefits for your licensing board. Thank you for working together for public protection.

Annual Meeting

We are locking in some great regulatory speakers for our 2021 Annual Educational Congress in West Palm Beach, Florida.

Watch our website for more information including a draft agenda and registration later in January.

FCLB Directory

The FCLB Official Directory (directory.fclb.org) sees thousands of visitors each month. Make sure your board's practice and licensure information is up-to-date. Email changes to jgrier@fclb.org.
