

Chiropractic Assistant Regulations/Statutes/Policies

This chart serves to provide results from a 50 state survey of existing regulations, statutes, and Chiropractic Board policies regarding chiropractic assistants (CAs). If no information was found regarding CAs from the sources listed above, “no language identified” is listed in column C.

Issues:

1. How many chiropractors with active licenses are in the state? (Column A)

2. How many chiropractic assistants are in the state? (Column B)

**Note:* The data listed in columns A and B was taken from the Federation of Chiropractic Licensing Boards’ Official Directory page (found at: <http://directory.fclb.org/LicensingBoards/US.aspx>).

**Note:* If no data was available, the space was left blank.

3. Is the supervising chiropractor required to be physically present when the CA performs his or her CA duties? (Column C)

a. **Note:* If available, the definition of “direct supervision” is also provided.

4. What is a CA’s scope of practice? (Column D)

5. Are CAs required to be licensed, certified, or registered to practice as a CA? (Column E)

**Note:* If the state does require CAs to be licensed, certified, or registered, the requirements to attain these are listed. If the language was silent on any of these requirements, the existing CA policy from the respective state’s Board of Chiropractic page is included if available.
