

*Protecting the public and serving our member boards
by promoting excellence in chiropractic regulation*

2007 FCLB Outstanding Regulatory Board

Each year, the accomplishments of one board set a new standard for chiropractic regulation. They model for others the excellence that marks the daily responsibilities of protecting the health, safety and welfare of the public.

They say it can be done – and then they do it.

This year's FCLB award for outstanding chiropractic regulatory board recognizes one

board's innovative and proactive efforts. The regulatory world has expanded to include a better understanding of the informational needs of both students and licentiates. This board has embraced those responsibilities, setting higher standards for communication. From student informational programs to increased board accessibility, from proactive efforts to move to reduced use of paper to more comprehensive CE requirements, these people have taken the board of tomorrow and brought it into clear focus today.

The foundation for their creativity is their commitment to service. Without hesitation, they faced the record-keeping concerns within the profession and didn't back down. They identified needs for greater board accessibility and took steps to bring necessary resources to their licentiates and their board.

For their creativity in finding effective methods of meeting needs within the profession,

For their commitment to developing character, professionalism, and ethics in their board and licensees,

And for their willingness to volunteer generously their ideas and talent with the Federation family,

Please join me in extending our appreciation and recognition to the FCLB's 2007 Outstanding Regulatory Board, **The Florida Board of Chiropractic Medicine**

*Presentation by Dr. N. Edwin Weathersby, FCLB President, at the
Federation of Chiropractic Licensing Boards' 81st Annual Congress*

St. Louis, Missouri, May 5, 2007
