INFORMATION

FCLB serves as a clearinghouse of information about chiropractic licensure. From white papers to model language, from license verification links to scope of practice for every member board, all of this and more is available on the FCLB website at fclb.org.

CENTRALIZATION

Redundant workloads are a poor use of licensing boards' time, and duplicate inquiries and submissions are a waste of stakeholders' time. FCLB works to centralize these redundant processes through targeted, streamline programs that consolidate projects through single, volunteer task forces.
